

OnSite Support – Continuously improving our fleet logistics

To Whom it May Concern

At OnSite Support we aim to help our customers grow and improve their business.

OnSite Support Ltd is part of the Fleet Operating Recognition Scheme (FORS), which is an accreditation scheme that aims to raise the level of quality within fleet operations. It is used to demonstrate which operators are achieving exemplary levels of best practice in safety, efficiency, and environmental protection. FORS is a scheme for all types of vehicles operated on public highways, such as heavy goods vehicles, vans, passenger carrying vehicles, cars etc. and can be used to aid specifiers that 'buy-in' their transport requirements.

OnSite Support currently hold the Silver standard and are working hard to achieve the highest level of Gold status. In order for us to achieve Gold we are asking our customers to look at and consider joining FORS Bronze and start the journey to more responsible fleet operations. Customers or contracted services who decide to join as FORS members will be monitored to ensure the FORS standard has been adopted, implemented and complied with and will then benefit and be able to publicly display the FORS accreditation.

Becoming a FORS member can bring you the peace of mind that your company is aware of and managing its work-related road risk (WRRR) – In addition it demonstrates to your customers & suppliers your commitment to exceeding the industry standard.

Below are five key benefits of FORS accreditation

Stand out from the crowd

- If you were a transport buyer required to choose between two operators, who would you appoint? Would you select one whose safety record and environmental practices you knew nothing of? Or the one whose FORS accreditation proved a commitment to good practice in all aspects of the business, including road safety, sustainability issues and other aspects of corporate social responsibility? Who would you choose if you were in this position? It's a simple choice for the transport buyer.

Improve your road safety record

- Specialist 'FORS Professional' training equips your logistics team (managers and drivers) with the skills and knowledge to improve their work related road safety. This includes reducing the risk of collisions with other motor vehicles and, crucially, vulnerable road users.
- FORS accredited companies have access to safety specific tools, guides and training courses, that help them improve their work related road safety.
- In 2019, 24% of members reported a reduction in the cost of their annual fleet insurance as a result of joining FORS, a direct benefit to their business finances

Reduce Fuel Consumption; Increase Efficiency

- 'FORS Professional' provides classroom training and eLearning modules for managers and drivers covers environmental best practice and tactics on driving efficiently. FORS also provides best practice toolkits helping to put you one step ahead of the competition. Expert advice on the latest technologies and systems will provide real life tangible efficiencies to your business. Dedicated driver training will promote defensive, more economic driving, leading to reduced fuel costs.

- In 2019, FORS Gold accredited members showed a 12% improvement in fuel usage, 14% reduction in CO2, 32% reduction in incidents reported and 49% reduction in the number of PCNs received.

Ensure Compliance

- Make use of 'FORS Affinity' partner products to meet your legal obligations and ensure you remain compliant with the FORS Standard.
- FORS Fleet Management System, powered by FleetCheck, delivers a comprehensive platform enabling complete vehicle, driver and organisation management.
- Operators have a duty-of-care by law to check their drivers competency and capability. FORS Driver Licence Checking Service, delivered in partnership with Licence Bureau Limited, provides preferential rates to members.

Gather industry 'Know How' and networking opportunities

- With fortnightly eNews, monthly eLearning and a regular magazine, FORS members receive insider knowledge on how the scheme is changing the industry and where potential new opportunities. Through funded and discounted 'FORS Professional' training, managers and drivers will have the chance to meet, swap tips and network with other industry professionals.

How to Join FORS

To become FORS members, simply complete the online registration form or call for further information.
