

SPECIFICATION SHEET SKU EXNIRK10

BEARTOOLS EXCAVATION INSPECTION RECORD (PACK OF 10)

- A strong, robust, bright record that displays all compulsory information and risks in excavated areas.
- Enables workers and site managers to increase their safety compliance and EU directive by effectively communicating the vital information
- Strong quality material meaning that it will not deteriorate in changing weather climates quickly.
- Making sites safer eliminates multiple risks and hazards. Simple and clear to understand so that colleagues are aware of the current status of the excavated site.
- Vital to have this record on display upon site inspection, displays an added safety regulation to enable workers safety is maintained whilst working on the site.
- The Record includes; date of inspection, weekly inspection (with space for date and signature), location, description, space for other important notes, name & telephone, H&S considerations, name of competent person reporting and what safety equipment is required.

These inserts come with a record holder which attaches to any fencing or barriers around the area of excavation, in our kit we included tags which enable you to tie the holder to the object on which it is secured to ensure a secured fixture.
